Subject: Re: SADIE Widget for JavaScript

Janine,

Please give me a level of effort to complete this work. Tomorrow is fine. Get rest tonight.

John L.,

Please provide Janine and/or the appropriate Weston developer with our SADIE JavaScript widget code. Marty would like this widget available in the common operational viewer that will be used for the Gold King Mine emergency response. I expect that our code will need to be adapted to work with the R6 JS viewer.

Please provide Marty and me an estimate of when the widget can be deployed in the Gold King viewer.

Thanks,

John Wieber
